CALL TAXI

# Why Fastrack?

Fastrack taxis are available in Chennai. The taxis are operated 24 hrs 365 days a year.

Each cab covers on average more than 200 km each day. A fleet size of over 2000 active cabs at any point of time.

Single Largest Cab service provider at Chennai Airport , Chennai Central Station, EGMORE , PERAMBUR & TAMBARAM Stations, Malls , Apollo Hospitals and many other important locations with a EXCLUSIVE dedicated counter.

Fastrack taxis move around the entire city and are frequently seen at airports, stations, bus stands, hotels, bars, tourist spots etc. Each taxi is its own mobile hoarding and is the most cost effective way to get your message across the entire city.

## EXCLUSIVE COUNTER'S

- Chennai Airport
- Chennai Central Station
- Egmore Station
- Perambur
- Tambaram Station

Operating round the clock 365 days a year your brand is seen by lakhs of passengers and commuters every month

Is a great reminder medium, seen repeatedly by people all across the city. Is the only medium that can be used to target both the niche segments (passengers) and the masses on the roads.

The closest competitor does not even have 40 % of FAST TRACK's fleet size.

Branding can be done on both the sides on all 4 doors.

Branding can be done on the back of the car also, making sure that your brand is visible from 3 sides.

The bigger the creative, the more it catches the attention of your consumers.

Rendered Image

Innovative & Eye-catching branding can also be done just above the boot & number plate for enhanced rear visibility

# Convoy Roof Branding

Rendered image

Perhaps the most thrilling part about branding the Fastrack cabs is Convoy Roof Branding... It can't get more exciting than this. Imagine a fleet of cars, one behind another with your brand on all the 3 sides and a 3 dimension cut out of your brand/product on roof of the car.

These cars don't take any passengers, but move in a row together throughout the city to create a huge impact.

The more the number of cars chosen for this type of branding, the higher the recall.

# Charging Units

Charging unit will be placed facing the passenger and will contain chargers for multiple cell phones. It will also contain a holder for placing brochures etc..

# Internal Branding

The 'interaction time' brands get with their consumers through this kind of advertising is up to 45 minutes, heaps more than that offered by other online or offline platforms. With this kind of internal Ads, brands get a captive audience.

Your brand can be showcased behind the front seats directly facing the passenger.

# Product Sampling

Product Sampling is an interactive platform. Freebies/Giveaways are always one of the best ways to catch the attention of your target audience as well as increase the rate of recall.

Whether it's a launch of a new product, or an introduction of a new flavour/type etc. Excellent way to actually make people use your product.

Product Sampling can be done either from the Airport Pickup Counter or the Railway Station Counter.
